Which one is not a connection stress:

a) Normal stress in bolt
b) Shear thru base-plate
c) Bearing stress on the washer
d) Transverse shear
e) Couple stress
Load associated to torsion on the base-plate:

- a) \( P_x \)
- b) \( P_y \)
- c) \( P_z \)
- d) \( P_x + P_z \)
- e) None of the above
Clickers

- Critical bolt (higher force):

- a) 1
- b) 2
- c) 3
- d) 1 and 4
- e) 2 and 4
